EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Roy on Tuesday, September 21, 2004.

The application has been amended as follows:

In the Specification:

Page 10, line 24 "5" has been replaced with -6--.

Allowable Subject Matter

1. Claims 8 and 10-45 (renumbered 1-37) are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a method of routing variable-length packet data across a communications network having a plurality of data communications channels, comprising: inverse-multiplexing a data packet into a frame comprising: a label block containing label information of the frame; and two or more respective payload blocks having a predetermined length; wherein the step of inverse-multiplexing comprises dividing the data packet into N packet segments of substantially equal size; and transmitting the label block over a label channel of the network; transmitting each payload block over respective separate data channels of the network; and when the size of each
